# 6) Remember: Your Dreams May Vary!

Your **FloBeds Cover** is made of Cotton and/or Wool. Our covers unzip, so you can easily hang your mattress top in the sun. We suggest sunning your mattress top a couple of times a year. Sunning will help eliminate dust mites. If you suffer from severe allergies, with the top off, you can vacuum the inside top of your mattress components to remove allergens. That, combined with your sunned mattress top will provide you with cleanest and most comfortable mattress possible. Your mattress cover may be spot washed with cold water and mild soap. It should be line dried. *Do Not Wash. Do Not Put in Dryer.* If you feel you need to clean the entire cover, we recommend professional cleaning. Be sure to inform your cleaner of the contents: Cotton and Wool.

\*NOTE: Unlike conventional mattresses, your FloBeds sleep system allows you to see the components of your mattress, you know what you are sleeping on. Latex is a natural product and will have minor inconsistencies and blemishes. *Traditional* latex beds have pieces laminated together (latex is not made to mattress sizes). The edges may have fractures or be uneven and may have been repaired with nontoxic glue. These will not affect the ability to provide your body with superior support. Foam discoloration from light is normal. Latex may be gently washed with soap and water.
