

Why specify FSC-certified CollinsWood®?

CollinsWood.com

CollinsWood®

FSC® certified | Contributes to LEED

- **Earn LEED credits.** All Collins hardwood and softwood, Collins Pine FreeForm® Particleboard, Collins Pacific Albus®, and TruWood® Siding & Trim contribute to LEED.
- **Reduce your carbon footprint.** By choosing CollinsWood®, you are endorsing actions The Collins Companies have currently taken to reduce emissions 18 percent through audits from the National Climate Action Registry.
- **Support mandatory forest standards.** Some certification systems are optional and are left to the discretion of a company. Forest Stewardship Council (FSC) certification has rigorous mandatory requirements that result in measurable, transparent facts on how we are improving the entire forest ecosystem, plus provide economic and social stability to rural communities.
- **Decrease cancer-causing chemicals.** Collins' ongoing research has resulted in a western pine particleboard with no-added formaldehyde resins, thereby reducing exposure to cancer-causing products in homes and workplaces.
- **Get quality, consistency and availability.** We grow it. We know it. Family-owned for more than 150 years, Collins owns and operates more than 312,000 acres of its hardwood and softwood forests.
- **All Collins products are manufactured in the U.S.** We operate facilities in Boardman, OR; Klamath Falls, OR; Lakeview, OR; Chester, CA; Kane, PA; and Richwood, WV.

FSC-certified CollinsWood products:

■ Collins Softwood Lumber

Dimension, common and industrial grades, slicing flitches

LAKEVIEW SAWMILL SCS-COC-000067

COLLINS LAKEVIEW FOREST SCS-FM/COC-00012N

What's in a name? A promise.

“Our mission is to manage the forests sustainably. Nurture the forest’s biodiversity. Help create a stable workforce that builds healthy communities where families can work and thrive. Foster loyalty and trust simply by being loyal and trustworthy. Leave the Earth better for our being here.”

Truman W. Collins, 1943, President, 3rd Generation

*That’s been our vision. It’s still our vision.
And it’s our promise to you.*

The real deal.

“We specialize in custom-made suspended wood ceiling panels, mainly for institutions. The wood has to be clear and beautiful. It also has to come from a company that’s the real deal when it comes to forest management. Collins is that company.”

Michael Roemen, Design Solutions Manager, 9Wood

“Why Collins? They’re the absolute leaders in FSC-certified wood. They’re loyal. They know us. We know them. We trust each other. And because our businesses are close, we minimize our carbon footprint.”

Chris Richter, Western Woods, Chico, California

“With Collins I got the environmental standards I support. On a project at the San Francisco International Airport, we received the first commercial award ever given by the National Resources Defense Council for utilizing materials from sustainably managed sources. It’s a win for us, for Collins, and for the earth.”

*Keith Boswell, AIA, Technical Architecture Director
SOM/San Francisco*

“I’m in the business of building tomorrow’s antiques today. I want the highest quality and most beautiful hardwoods. I expect consistency and dependability. And I want it from a company whose values mirror mine and my customers. That’s why I specify CollinsWood.”

Marc Gaudin, The Joinery, Portland, Oregon

A cut above... certified plus.

Look behind all the green wash that’s out there and check out the facts. Clear cutting? *Never in a Collins forest.* Genetically modified organisms? *Never in a Collins forest.* Road building or logging in steep, unstable terrain? *Never in a Collins forest.* Habitat ignored? *Never in a Collins forest.* Conservation zones optional? *Never in a Collins forest.* Streams and watersheds polluted or debris-filled? *Never in a Collins forest.* For a detailed summary of our environmental practices, visit CollinsWood.com.

Lead with a proven leader.

Collins is:

- The first privately owned forest products company in the U.S. to be FSC certified.
- The first forest products company in the U.S. to adopt the principles of The Natural Step into all of our manufacturing and office facilities. The Natural Step is an international environmental organization dedicated to shifting people and business away from linear, resource-wasting, toxic-spreading methods of materials handling and manufacturing toward cyclical resource-preserving methods.
- The first forest products company to become a member of the Climate Action Reserve, the most rigorous voluntary greenhouse gas reporting program in the U.S. All Collins manufacturing facilities undergo mandatory, independent, third-party energy audits made publicly available through the Climate Action Reserve.
- The founding member and first forest products company in the U.S. to be a signatory to the World Wildlife Fund Climate Savers Tokyo Declaration.
- A member of EPA Climate Leaders.
- The first and only U.S. forest products company to manufacture FSC-certified western pine particleboard with no-added formaldehyde (Collins Pine FreeForm Particleboard).
